Name_____   Section_____

Ethical Issues Surrounding Artificial Intelligence Systems and Big Data
Student Reflection, Fall 2018

(1) Please define the following terms according to your own beliefs. These terms are
     purposefully vague and can be subjective.

AI =

Big data =

Ethics =

Fairness =

Bias =

Privacy =

(2) What do think are major *ethical* challenges in the development of AI?

(3) Do humans or AI make *fairer* decisions? Why?

(4) Does *bias* exist in AI technology and big data? If so, where?

(5) What is the role of government and regulation in AI technology?
